Hi, my name is Crystal and I am currently a junior at Texas Tech University. I am in the process of getting my bachelor's in English with three minors: Spanish, Asian Studies, and Linguistics. My overall goal is to become an English teacher focusing on both the language itself and the literacy rate. I am also certified in Teaching English as a Foreign Language (TEFL) which would allow me to teach English in foreign countries and travel the world. You are always welcome to come see me even if you're just needing tips with studying, note taking, or navigating college. I am so excited to help you reach your goals this semester!
